

The Green Lantern Trail

Explore the Green Lantern Trail

1923

2003

Created as a part of the SR 527 roadway expansion, this landscaped trail increases access to the northern and eastern shores of Silver Lake, helping to complete the greenbelt around the lake. As you explore the trail, please enjoy the new public access piers and picnic viewing areas. Interpretive signs describing the lake's wildlife and the history of the area will add to your experience of the lakeshore.

The City of Everett and the Washington State Department of Transportation hope that you will enjoy your walk along the Green Lantern Trail.
